# DATA FOUNDATIONS
Modern Backup in The Age of AI

PLASMA NETWORKS

AI has the potential to unlock unprecedented levels of business productivity, but its success is fundamentally dependent on one core ingredient: data.

AI for Consumer
e.g ChatGPT

Input → AI → 🌐 Public Data → Output

AI for Business
e.g Copilot for Business

Input → AI → 🌐 Public Data | 🏢 Corporate Data → Output

Microsoft 365

Email
▶ Email
▶ Taks, Notes, Journal
▶ Public Folders & Shared
▶ Mailboxes

SharePoint
▶ Classic Team Sites
▶ Subsites
▶ Lists
▶ Files and versions

OneDrive
▶ Full account
▶ Folders
▶ Files and versions

Teams
▶ Standard Channels: Posts and Files
▶ Private Channels: Posts, Files, and Membership
▶ Chat: Messages & Files
▶ Microsoft Planner

To ensure that your customers are Copilot-ready, selecting the right data protection solution is critical for successful Copilot integration. As AI continues to advance, your customers' Microsoft 365 data protection must be comprehensive, compliant, and complete to ensure that it meets the changing dynamics of AI.

	Key Requirements	Cloud Backup
✓ **Comprehensive**	Does the solution protect all Microsoft 365 services where data is created and stored? Does the solution offer unlimited storage to back up all data without constraints?	https://www.plasma-networks.com protects Exchange, SharePoint, OneDrive, Teams, and Planner. ConnectWise Cloud Backup offers unlimited storage and retention at a fixed price.
✓ **Compliant**	Is the data protection solution aligned with compliance standards? Is it straightforward to demonstrate and communicate compliance to stakeholders?	This Cloud Backup adheres to multilevel compliance standards including HIPAA, GDPR, ISO, Cloud Security Alliance, and Data Pro certifications.
✓ **Complete**	Are all of your organization's data assets currently protected? Does the solution offer robust monitoring and automation features to ensure continuous protection and swift response to potential threats?	https://www.plasma-networks.com has Smart Insights which allows you to have data-driven conversations to close the data protection gap. Additionally, ConnectWise Cloud Backup has automation through M365 Groups Management.
